

HOW TO USE YOUR TRASH CONTAINERS:

THE CONTAINER MUST BE PLACED IN A CLEARLY VISIBLE PUBLIC AREA

The 25- and 40-liter containers must be put outside closed with the handle facing upwards.

The container must be removed as soon as possible after emptying.

We advise you to be careful when picking up your container in order to avoid confusing it with the one(s) supplied to other users.

MUNICIPAL COLLECTION CENTERS

The collection center is a place where numerous types of recycled waste (including bulky waste) must be brought to. Here are some examples: wood material, twigs, metal material, WEEE (electrical appliances and electronics in general), bulky/durable waste, mattresses, furniture, batteries, food and automotive oil, tires, etc.

Only “home” and “non-domestic” (duly registered) TARI users are authorized to bring waste. Collection centers can also be given material destined to door-by-door collection (glass, paper, plastic packaging, tin cans, etc.) in the presence of large quantities and/or sizes (for more information and details refer to the Municipal Regulation called “Collection center management”) on the institutional website of the Municipality of Udine.

The two collection centers are equipped with appropriate access control equipment; therefore, the Regional Service Card (CRS), Health Card or the specific badge provided by Net for “non-domestic” users (shops, commercial activities, studios, etc.) must be shown by all users. It is forbidden to withdraw and remove any type of waste.

The collection center is not accessible and cannot be used by unauthorized companies, businesses or productive activities (waste deriving from the circuit of craft and production companies in general will not be accepted).
